

## PIG® Drive-Over Build-A-Berm® Barrier Kit

PLR530 Ideal For Long-Term Custom Containment, High-Traffic Areas, 5.5" W x 48' L x 2" H, 1 each

Drive-over barrier springs back into shape when heavy vehicles pass. Custom containment berm helps you control liquids in high-traffic areas.

- Provides semi-permanent containment in high-traffic areas on concrete, asphalt or most sealed surfaces
- Durable enough to withstand indoor or outdoor traffic from trucks, loaded tow motors and other heavy vehicles with sufficient ground clearance
- Constructed of 40-ounce vinyl with crush-resistant foam core; berm compresses to approximately 1/4" when driven over; springs back to shape when vehicles pass
- Secure barrier to floor with sealant (included) and reinforce with predrilled aluminum mounting strips (included) and steel anchors (included); seal seams with vinyl cement (not included)
- Vented corners allow built-up air pressure caused by vehicle drive overs to escape
- Kit includes straight sections, corners and Sili-Thane sealant
