

PIG® Drive-Over DrainBlocker® Trench Drain Cover

PLR940 Ideal For Heavy Outdoor Vehicle Traffic, For Trench Drains 62.5" & Longer

Need to block your trench drain from spills, but not traffic? This adjustable-length trench-drain cover is heavy duty enough to drive a tanker over.

- Completely block water and spills from entering your trench drain system with this outdoor channel-drain cover.
- Count on the bottom layer that conforms perfectly for a super-tight seal while the HogHyde® rubber top layer withstands repeated traffic under heavy vehicles over years of use.
- Outlast any conditions with this drive-over trench drain cover—the toughest anywhere—that holds up against not only ripping and punctures, but also extended exposure to weather and UV/IR light, oils like diesel fuel and many chemicals.
- Easily create the length you need to fully cover your trench drain by connecting additional pieces together using the convenient puzzle-piece ends for an interlocked, liquid-proof seal.
- Stay looking professional for longer by simply wiping down the trench cover to clean it.
- Adapt it to your needs by either deploying it only during emergency spill response or leaving it in place as a preventive measure.
- Get to spills near your trench faster by carrying the cover in the included nylon carry bag.

Specifications

Max Liquid Temp Exposure	Max Exposure Limit 225°F for up to 30 Minutes
Use With	Trench Drains 62.5" & Longer
