

Bradley® Portable Drench Hose & Eye Wash

PLS1617 Portable, Holds 10 gal., Flow Rate 0.4 gal./Minute Minimum

Take this portable eye wash unit anywhere to provide ANSI-compliant emergency flushing.

- Sturdy stainless steel tank withstands industrial work sites; built-in handles make it easy to carry
- Fill unit with potable water and add preservative to keep clean and clear (water-treatment additive sold separately)
- 8' hose extends reach and full-size spray head fully flushes body or equipment
- Twin, chrome-plated brass eye wash heads create gentle cleansing streams when activated by large, highly visible push handle
- Stay-open valve prevents accidental shut off prior to full irrigation
- 10-gallon pressurized tank ensures ANSI standard 15 minutes of 0.4 gpm flow through eye wash or 3 minutes of 3 gpm flow through drench hose
- Tire-filler valve allows convenient pressurizing with standard air compressor or pump
- Attached gauge and relief valve help you monitor and maintain a safe pressure level
- Dust caps protect eye wash and drench hose heads from contamination and automatically release with activation
