

T-Ring™ Finger Cut Kit

PLS1811 Bleeding Control, Maximum Application Time of up to 60 Minutes, 1 each

This Finger Cut Kit contains everything you need to properly render critical emergency treatment of mild digit cuts, deep finger or toe lacerations or worse.

- Kit contains everything you need to render proper laceration treatment
- Contents are positioned within packaging in correct order of use for providing first aid for deep cut on finger or toe
- Treats digit lacerations from a light cut to a deep wound and even a severed fingertip; for severe injuries, kit is intended only as a stop-gap measure on your way to seek immediate medical treatment at a hospital emergency room.
- Easy-to-follow, step-by-step instructions
- Includes physician-designed T-Ring digit tourniquet that provides correct pressure level to immediately stop blood flow while reducing risk of nerve damage from excess pressure
