

## PIG® Pipe Wrap Repair Kit for Lines & Joints Not Under Pressure

PTY120 Non-Pressurized, For 2.5" - 4" dia.

Fast, easy way to permanently fix broken, corroded or leaking pipes to beyond their original strength.

- Each kit contains materials for restoring one unpressurized pipe or joint
- Works on most pipes, including PVC, copper, galvanized steel, rubber, lead and iron
- Materials adhere to wet or dry surfaces to allow repairs without draining pipes
- Butyl patch or PIG® Repair Putty applies underneath outer wrap to strengthen seal
- Polyurethane-impregnated fiberglass wrap exceeds original bursting pressure rating of pipes
- Nitrile gloves protect hands during repair
- Cures in approximately 30 minutes at 75°F
- Final repair is not affected by salt water
- NSF Certified for safe use on potable water lines
