

# Gorilla® Waterproof Patch & Seal Spray

PTY418 For Leaks and Punctures, 2.75" W x 2.75" L x 9.4" H, 6 per box

Stop leaks from small gaps and cracks over a large area and regain a clean look using this waterproof Gorilla spray sealant that fills in perfectly level for a smooth, paintable finish.

- Prevent or stop leaks with this permanent Gorilla patch-and-seal spray that forms a waterproof coating to block out water, air and moisture.
- Enjoy a clean, professional finish thanks to the applicator nozzle's controlled-spray pattern and the self-leveling formula's balanced distribution, all leaving an even coat that you can paint.
- Stay ready to patch and repair multiple small cracks, gaps and tears with 12 square feet of coverage in each user-friendly spray can.
- Trust the final rubberized seal to stay intact and water-tight since the coating's surprising flexibility resists cracking; works on most surfaces, including metal, plastic, vinyl and more.
- Confidently withstand the weather over the long haul because this Gorilla formula is both UV- and temperature-resistant; also works indoors.
- NOTE: proper ventilation and PPE required; must shake can for 30 seconds prior to use; recommend turning can upside down when finished and spraying gas toward disposable object to prevent clogging between uses.
