

Shoe Disinfectant Mat with Adhesive-Backed High-Visibility Runner

SAN204 Disinfect & Dry, For Commercial/Professional Grade Disinfectants, EPA List N Disinfectants, Alcohol, Cleaners And Sanitizers, 3' x 25' x 0.5"

Combines a shoe disinfectant mat with an adhesive-backed safety border runner for washing footwear in manufacturing areas. Add your own sanitizer, cut the runner with the included knife and installation board and keep the germs and dirt out!

- Clean and disinfect shoes in the disinfectant mat, then walk off excess liquid on a hi-viz adhesive-backed absorbent runner to safely clean and dry shoes; promotes a clean, germ-free facility, while reducing the likelihood of slips, trips and falls
- Hi-viz safety edge pattern is great for manufacturing applications, industrial warehouses with forklift traffic or hazardous walking areas within your facility
- Customize the length of the safety floor runner to your workspace needs by using the included safety knife and installation board; save extra runner for changeouts
- Adhesive-backed runner stays exactly where you put it with no shifting, bunching up or ripples that cause slips and trips
- Shoe scraper mat contains rubber finger-like scrapers to remove dirt, mud, debris and germs from the soles of shoes; contains 50% more "fingers" than standard scraper mats to dislodge even more debris and keep your facility cleaner
- Fill shoe sanitizer mat with your own disinfecting solution; immersing the soles of shoes in the mat removes contaminants and germs from the soles of shoes
- Adhesive-backed runner catches any overflow or splashes and provides a safe walk off surface to dry shoes after sanitizing
- Runner sticks to the floor with a super-tight grip, but peels up easily without leaving a residue or damaging floors
- Cleans easily in place using mop, floor scrubber or vacuum without budging
- Extremely durable runner stays in place for up to 3 months even under heavy foot, cart or forklift traffic
- Shoe sanitizer mat holds over a half-gallon of

disinfectant; compatible with FDA approved List N disinfectants, chlorine and quaternary ammonium

- Adhesive-backed runner will stick to most commercial floor surfaces including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate; sticks to the floor with a super-tight grip, but peels up easily without leaving a residue
- Contains (1) shoe disinfectant mat and (1) high-visibility safety floor runner starter pack (25' runner, installation board, safety knife)

Item#	Description	Dimensions	Weight

Disclaimers

[Pig Adhesive-Backed Mat Notice](#)

New Pig adhesive-backed mats are formulated to work with most common industrial and commercial floor surfaces but are not intended for home/residential use and wood flooring. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of New Pig adhesive-backed mats for your application, test a 6" x 6" piece in a non-critical area before use. New Pig adhesive-backed mats should be replaced if they show signs of wear or damage and should always be changed out before 13 weeks of use.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE IN THE CUSTOMER'S FACILITY. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S FACILITY.

[Color Variation Statement](#)

It is normal for top layer materials to show minor variations in color between production runs. This is particularly true for the grades of materials used in consumable or disposable products such as our adhesive-backed mats. New Pig makes every effort to achieve consistent color, but some variance is possible. Perceived differences in color may also result from mat layout orientation or uneven traffic wear patterns.

[Safety Instructions Regarding Flammable Liquids for Flame Resistant Mats](#)

Pig Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.
