

## Shoe Disinfectant Mat with Adhesive-Backed High-Visibility Runner

SAN204 Disinfect & Dry, For Commercial/Professional Grade Disinfectants, EPA List N Disinfectants, Alcohol, Cleaners And Sanitizers, 3' x 25' x 0.5"

Combines a shoe disinfectant mat with an adhesive-backed safety border runner for washing footwear in manufacturing areas. Add your own sanitizer, cut the runner with the included knife and installation board and keep the germs and dirt out!

- Clean and disinfect shoes in the disinfectant mat, then walk off excess liquid on a hi-viz adhesive-backed absorbent runner to safely clean and dry shoes; promotes a clean, germ-free facility, while reducing the likelihood of slips, trips and falls
- Hi-viz safety edge pattern is great for manufacturing applications, industrial warehouses with forklift traffic or hazardous walking areas within your facility
- Customize the length of the safety floor runner to your workspace needs by using the included safety knife and installation board; save extra runner for changeouts
- Adhesive-backed runner stays exactly where you put it with no shifting, bunching up or ripples that cause slips and trips
- Shoe scraper mat contains rubber finger-like scrapers to remove dirt, mud, debris and germs from the soles of shoes; contains 50% more "fingers" than standard scraper mats to dislodge even more debris and keep your facility cleaner
- Fill shoe sanitizer mat with your own disinfecting solution; immersing the soles of shoes in the mat removes contaminants and germs from the soles of shoes
- Adhesive-backed runner catches any overflow or splashes and provides a safe walk off surface to dry shoes after sanitizing
- Runner sticks to the floor with a super-tight grip, but peels up easily without leaving a residue or damaging floors
- Cleans easily in place using mop, floor scrubber or vacuum without budging
- Extremely durable runner stays in place for up to 3 months even under heavy foot, cart or forklift traffic
- Shoe sanitizer mat holds over a half-gallon of

disinfectant; compatible with FDA approved List N disinfectants, chlorine and quaternary ammonium

- Adhesive-backed runner will stick to most commercial floor surfaces including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate; sticks to the floor with a super-tight grip, but peels up easily without leaving a residue
- Contains (1) shoe disinfectant mat and (1) high-visibility safety floor runner starter pack (25' runner, installation board, safety knife)

Item#	Description	Dimensions	Weight
