

## Free-Standing Touchless Hand Sanitizer Dispenser

SAN300 Includes (1) Dispenser Unit, Holds 1000 mL, Indoor Use

Create a hand sanitizing station anywhere with an adjustable, free-standing dispenser — no sinks, no wall-mounts! Help keep employees and guests safe while meeting health guidelines.

- Free-standing station can be placed in high-traffic indoor areas where access to soap and water or wall-mount dispensers is not available; ideal for entrances, hallways, cafeterias, offices, shop floors and more
- Helps reduce the spread of germs by providing a hand sanitizing station at any point throughout your facility
- Touch-free automatic dispenser is a more hygienic solution than pump-top bottles
- Fill and refill the 33.8 oz. reservoir with any hand sanitizer gel (not included); eliminates the hassle of proprietary cartridges, bags and inserts
- Drip tray keeps floors dry beneath dispenser to prevent slips and falls
- Attached poster frame accepts your own A4-size signage (8.27" x 11.69") to draw attention to your station and promote hand sanitizer use
- Sturdy metal base is light enough for portability but heavy enough to keep unit in place
- Telescoping pole adjusts from 55" H – 63" H (dispenser nozzle height 30" H – 38" H)
- Requires four C batteries (not included)

### Specifications

Style	Free-Standing
Size	Adjustable from 55" H to 63" H
