

## PIG® Sheen Clean® Oil-Only Absorbent Sock

SKM600 3" x 48", Absorbs up to 1 gal. per sock, 12 socks

Cleans up the thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, filmy sheens of oil
- Ideal for long-term deployment to remove sheen after oil-based spills or absorb oil residue in retention ponds, catch basins, tanks and more
- Polypropylene skin resists tearing; reduces dust and holds in liquid, even when saturated
- Attached string allows socks to be tied down, tied together or dipped into tanks
- Absorbs and retains oils and oil-based liquids - including lubricants and fuels - without taking in a drop of water
- Bright white color makes sock easier to see in outdoor environments and clearly shows saturation level
- Skin is UV resistant up to 12 months; provides long-term outdoor use without degradation
- Can be incinerated after use to reduce waste or for fuels blending
- Not recommended for use with acids, bases or other corrosive liquids
- Nobody knows more about socks than New Pig - we invented them!
