

## PIG® Magnetic Roof Leak Diverter Tarp

TLS1999 5' W x 5' L, Leak Diverter Tarp, Install With Magnets

Quickly respond to metal roof and ceiling leaks with a customizable, magnetic fit, even in hard-to-access areas

- Easily keep rain and snow from storming *inside*. Whether condensation and ice, or heavy rain from a high-wind hurricane, this solution will quickly protect your team and what you've built.
- Sewn-in magnets allow for easy, fast deployment anywhere that metal is present
- Magnets provide a customized fit in areas where traditional leak diverter tarps may be difficult to hang
- Heavy-duty vinyl-coated tarp resists punctures, UV and mildew and lasts multiple deployments
- Pinched corners create a funnel to channel liquids to a drain or collection container without overflowing or sagging; engineered with leak-proof seams and connections
- Diverter tarp can hold up to 50 lbs. or 6 gallons using magnets alone; grommets along the sides provide extra support in high-flow situations
- Flow rate of 3.33 gallons per minute when used with a 1/2" ID hose
- Hose (required), hanging straps (optional) and collection container (optional) sold separately
