

## PIG® Roof Leak Diverter Tarp

TLS464 10' x 10', Leak Diverter Tarp, Install With Hanging Straps

Stop roof or ceiling leak damage and protect your people, equipment and inventory with the original leak diverter tarp.

- Easily keep rain and snow from storming *inside*. Whether condensation and ice, or heavy rain from a high-wind hurricane, this solution will quickly protect your team and what you've built.
- Heavy-duty vinyl-coated tarp resists punctures, UV and mildew and lasts multiple deployments
- Pinched corners create a funnel to channel liquids to a drain or collection container without overflowing or sagging; engineered with leak-proof seams and connections
- Brass grommets resist tearing and make installation easy; multiple hanging points add stability and preserve funnel shape
- Extra-large drain opening and debris cage prevents clogs from crumbled ceiling tiles, drywall and roofing material
- Flow rate of 3.33 gallons per minute when used with a 1/2" ID hose
- Collection container, hose and hanging straps sold separately
