

PIG® Drywall Ceiling Leak Diverter Tarp

TLS830 16" W x 16" L x 3" H, Leak Diverter Tarp;
Support Rods, Install With Support Rods

Stop stains and damage from spreading across your drywall ceiling by quickly capturing drips with this leak diverter designed specially for drywall ceilings.

- Save money by preventing the spread of stains and damage using this leak diverter that's specially made to capture and divert drips from drywall ceilings before they become a bigger, more expensive problem.
- Count on this reusable drywall leak diverter throughout the rainy/hurricane season, or year-round in leak-prone buildings, because the heavy-duty vinyl-coated tarp resists punctures, UV and mildew, and lasts for multiple deployments.
- Maintain a professional look since this diverter attaches above the drywall, replacing the water-stained area on the ceiling, to leave only partial visibility of the full diverter.
- Trust the tested design to keep leaks flowing away from your ceiling thanks to the clog-blocking debris cage and the diverter's proven 3.33 gallon/minute flow rate when used with a .75-inch hose; connector for .75-inch hose included.
- Confidently leave in any drywall ceiling, where a traditional leak diverter won't attach, until you're able to repair the leak to stop further ceiling water damage.
- NOTE: Collection container and hose are sold separately; average drywall supports up to 5lbs. of debris on cage.

Specifications

Dimensions	16" W x 16" L x 3" H
Application	Ceilings
Brand	PIG
Contains	Leak Diverter Tarp; Support Rods
Drainage Hose	Sold Separately
Flow Rate	3.33 gal./Minute
Color	White
Hose Connector	.75"

Installation Method	Support Rods
Shape	Rectangle
Sold as	1 each
Weight	1.5 lbs.
Composition	Tarp: 13oz Reinforced PVC Support Rods: Fiberglass Rods
Includes	1 - 16" x 16" L Leak Diverter Tarp 2 - 24" Support Rods 1 - Hose Connector Replacement Set (TLS645)
UNSPSC	24141506
Pigalog® Page Number	<u>Page 286</u>

Metric Equivalent

Weight	.7 kg
Dimensions	41cm W x 41cm L x 7.6cm H
