

PIG® Bucket of Cleaning Wipes - Add Your Own Disinfectant

WIP8330 For Commercial-Grade & EPA List N Disinfectants, Cleaners - NOT for Quat-Based Sanitizers, 13" x 12", 450 wipers

Add your own disinfectant to our disposable dry wipes to create your own cleaning wipes to sanitize surfaces.

- Disposable wipes in a bucket allow you to create your own cleaning wipes by adding the antibacterial cleaner, disinfectant or sanitizer of your choice to the bucket of our dry wipes
- Wipes are ¼ folded for easy pulling and dispensing from the bucket when saturated
- Easy-to-reseal polyethylene bucket with clear sidewalls make it easy to safely store wipes and monitor usage
- Cellulose/polyester blended, low-lint wipers are compatible with disinfectants, sanitizers and cleaning solutions; not for use with quaternary ammonium cleaners
- Closed, all-in-one bucket system means less contamination and exposure to chemical vapors, spills and splashes; safer than an open bucket
- Strong and solvent-resistant for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces
- Saturating wipers in a bucket help reduce waste compared to using dry wipers with multiple spray bottles
- Helps meet workplace control measures outlined by OSHA's Guidance on Preparing Workplaces for COVID-19

Specifications

Style	Folded
Use With	Commercial-Grade & EPA List N Disinfectants, Cleaners - NOT for Quat-Based Sanitizers
Color	White
Dimensions	13" W x 12" L
