

Ergodyne® Class 2 Cooling Safety Vest

WPL894 Class 2, Zipper Front, 1 each

Stay cool and highly visible in this Class 2 cooling vest that activates quickly and lasts for hours.

- Triple-layer design includes Class 2 high visibility shell, polymer-embedded mid-layer and water-repellent liner to help keep wearer dry
- Breathable mesh along the bottom of the vest reduces weight, enhances airflow and prevents excess water from dripping onto clothing
- Activates quickly by soaking in water for just 2 to 5 minutes; embedded polymers retain water for up to 4 hours of cooling relief
- Water-repellant liner keeps the interior as dry as possible when activated; however, wearers should expect to feel some dampness/wetness
- Loops along interior of neckline allow wearers to insert cooling towels for additional cooling relief along neck
- 2 lower interior pockets for storage and 1 exterior chest pocket
- Zipper closure for easy on/off
