

Ergodyne® Knee Pads

WPL898 For Protection on any Surface, 1 pair

Keep your knees comfortable, even while crawling, by wearing these knee pads with an ergonomic hinge design that keeps the protection in place while you move.

- Free-moving hinge design enables smooth, full 180-degree extension of the pad when straightening the knee, unlike other knee pads of this style on the market
- Thick, closed-cell foam padding provides supportive all-day comfort
- Extra-large rubber cap maximizes surface area to increase stability
- Wide elastic straps easily adjust for a custom fit on a variety of leg sizes; designed to sit farther apart on the thigh and calf to prevent binding
- Heavy-duty hard shell combined with soft, non-marring cap provides versatile protection for any indoor or outdoor surface, no matter how abrasive or delicate
- Rubber cap minimizes risk of scratching or marking flooring such as tile or linoleum

Specifications
