

PIG® Water Absorbent Mat Pad Quick Response Packs

WTR021 15" W x 19" L, 100 pads (10 packages of 10 each)

Easily store and access the ONE mat to keep in stock for water cleanup caused by wet weather, ceiling leaks, pipe bursts, cleanouts, washdowns, maintenance or other water spills anywhere in your facility.

- One box contains 10 packs of 10 mat pads; perfect for large facilities with multiple storage closets and janitorial carts - keep a 10-pack in each location to respond quickly to a spill!
- Mat pads absorb nearly one quart of water and can be used to quickly clean up spills, puddles and leaks from wet weather
- Designed and engineered to pull in large volumes of water on contact; superfast wicking helps you quickly eliminate pools and puddles to prevent damage and injuries
- Wring and re-use during a single water spill clean-up, then dispose; wringable mats mean less hassle, less waste and more savings
- The best mat to have on hand when heavy rains, snow or ice intrude your facility; soaks up water that comes in through open windows, porous footers, cracked foundations, roof leaks and seepage under doors
- Helps you deal with water from cleanouts, system breakdowns, burst or leaking pipes, broken hoses, leaking hot water tanks or malfunctioning equipment
- Soaks up excess washdown water in food service, food processing and other critical areas
- Use when sump pumps or wet-vacs are not necessary or available; creates less waste than wipers or loose absorbents
- Cleaner, more efficient method than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors
- Tough, spunbond top layer holds mat together when it's fully saturated, so it won't rip or fall apart when you pick it up
- Easy-tear perforations let you take only what you need, so you use fewer mats and save money
- Made with 60% pre-consumer recycled cellulose
