

Flex Seal® Flood Protection™ Starter Kit

WTR259 For Metals, Masonry, Glass, Plastics & Wood, 7" W x 3.9" L x 12.75" H, 1 each

Includes two different flood protection products plus the accessories and how-to guide needed to keep flood water out.

- 8-piece kit includes Flex Paste Flood Protection, Flex Seal Liquid Flood Protection, caulking gun, Flex Gap Filler Tool, paint brush, nitrile gloves (2 pairs) and how-to guide
- Flood Paste in a Cartridge is the primary Flood Protection product and should be used as a base coat for your first layer of protection
- Flood Liquid should be used primarily as a final layer of protection to help seal any small pinholes or openings that may have been missed
- Also includes additional tools to make your job easier
- Flood Protection Paste: A 1/4" inch bead will cover approximately 21 linear feet
- Flood Protection Liquid: At 2 inches wide, 10oz will cover approximately 18-22 linear feet at 15 mils thick
- Once waters recede, both Flood Protection Paste and Liquid can be easily removed
