

## Flex Seal® Flood Protection™ Multi-Purpose Kit

WTR260 For Metals, Masonry, Glass, Plastics & Wood, 7" W x 5.5" L x 12.75" H, 1 each

Includes five different flood protection products plus the accessories and how-to guide needed to keep flood water out.

- 12-piece kit includes Flex Paste Flood Protection (2), Flex Seal Liquid Flood Protection, Flex Tape Flood Protection, Flex Seal Flood Protection Spray, caulking gun, paint brush, nitrile gloves (2 pairs), Flex Gap Filler Tool, safety glasses and how-to guide
- Flood Protection Paste in a Cartridge is the primary Flood Protection product that should be used as a base coat for your first layer of protection
- Flood Protection Paste in a Sleeve should be used on larger areas, flat surfaces or directly on top of other Flood Protection products
- Flood Protection Liquid should be used a final coat of protection to help seal any small pinholes or openings that may have been missed
- Flood Protection Spray can be used as a primer coating for hard-to-reach areas and/or as a final coat of protection to help seal any small pinholes or openings that may have been missed
- Flood Protection Tape should only be used on smooth, flat, even, nonporous surfaces and always in combination with other Flood Protection products
- Once Floodwaters recede, all Flood Protection products can be easily removed
- Also includes additional tools to make your job easier
- When used in combination, these products can seal various openings in your home or business
